

GAME DESIGNING

-Microsoft's

Are you interested in games? Do you want to design games? **CRESENSE2K19** is providing a platform to learn designing a game in association with **Microsoft** held on Feb 18,19.

GAME DESIGNING & MINECRAFT

Game design is the art of applying design and aesthetics to create a game for entertainment or for educational or experimental purposes. Increasingly, elements and principles of game design are also applied to other interactions, particularly virtual ones.

Minecraft is a sandbox game developed by Mojang. Gameplay involves players to build with a variety of different blocks in a 3D procedurally generated world, requiring creativity from players. Other activities in the game include exploration, resource gathering, crafting and combat.
